Risk, Return and Diversification Standards

5.7 Differentiate between saving and investing.

5.8 Identify factors that affect investment choices by analyzing the difference between conservative and speculative investments, differentiating between growth investments and income investments, and explaining why savings and investing plans change as one proceeds through the life cycle.

5.9 Evaluate the overall risk of an investment by examining the different types of risk and discuss how diversification can help reduce some risk.

Demonstrate employability skills required by business and industry.
1.2 Demonstrate creativity with multiple approaches to ask challenging questions resulting in innovative procedures, methods, and products.

1.3 Exhibit critical thinking and problem solving skills to locate, analyze, and apply information in career planning and employment situations. Explore how related student organizations are integral parts of career and technology education courses through leadership development, school and community service projects, entrepreneurship development, and competitive events.

12.5 Explore the competitive events related to the content of this course and the required competencies, skills, and knowledge for each related event for individual, team, and chapter competitions."
